DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-3, 11-13 and 19- 20, drawn to optical coating, classified in class 428, subclass 448.
- II. Claims 4-10 and 13-18, drawn to process for producing a coating, classified in class 427, subclass 162.

1. Inventions I and II are related as product and process of making. The inventions are distinct if either or both of the following can be shown; (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process. (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process, such as chemical vapor deposition.

2. The several inventions above are independent and distinct, each from the other. They have acquired a separate status in the art as a separate subject for inventive effect and require independent searches (as indicated by the different classification). The search for each of the above inventions is not co-extensive particularly with regard to the literature search. Further, a reference which would anticipate the invention of any one Group would not necessarily anticipate or make obvious the any of the other groups. For these reasons restriction for examination purposes is proper.

Art Unit: 1775

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lymarie Miranda whose telephone number is (703) 308-6370. The examiner can normally be reached on Monday through Thursday.
